WattUp® EN3921 Power Amplifier Controller

Highly integrated wireless power amplifier controller enables WattUp wireless RF/antenna-based charging

EN3921 is a power amplifier controller IC that supports biasing, monitoring and dynamic control of the EN3913 GaN power amplifier. Along with the DA4100 transmitter IC and EN3913M GaN Power Amplifier, they charge WattUp-enabled receivers. WattUp receiver technology may be integrated into various devices such as fitness trackers, hearables and wearables, smartphones, tablets, power tools, and other high-power devices.
